# INTRODUCTION

## Take on the pros!

You've got nearly 700 real Major League Baseball Players from all 28 Big League rosters at your control. And you can face them all on their turf — from Chicago's friendly confines to the Big Green Monster in Boston.

Step up to the plate as Juan Gonzalez, Frank Thomas, or Cecil Fielder and sink a pearl in the K.C. waterworks, or see what it feels like to stare down the barrel of a loaded cannon when Greg Maddux, Randy Johnson or Roger Clemens lights up the radar at 90 MPH.

You can even create your own Dream Team — how would Jose Canseco look in Florida teal or Ken Griffey, Jr. in Yankee pinstripes? You can replay classic baseball moments with the Game Breakers module and rosters of every division champ since 1989. You can even warm up your glove in Defense Practice mode.

With Super RBI Baseball, it's a whole new ball game ...

## GETTING STARTED

# GAME TIPS

## PITCHING

Starting pitchers have more stamina than relievers. Keep an eye on your pitcher — when he begins to get tired, he will start to breathe hard, his MPH will drop and you will have trouble controlling the movement of the pitch. The fastball and sinker use more stamina than normal pitches.

## BATTING

Do not stand still in the batter's box. Try to fool the pitcher as to where you will be when the ball is thrown.

You can cock the bat back for a quicker, shorter swing. To do this, tap the Y Button once. Be aware that you sacrifice power in favor of contact using this technique.

Although you can't fully control the hitting of fly balls or grounders, you can better your chances of getting such a hit by pressing the Control Pad UP to swing for a grounder, or DOWN to swing for a fly.

## GENERAL

If you replace a fielder with a player who is not from the same position, he will make more errors than a player better suited for that position.

When you throw or run with the ball, choose the desired direction with the Control Pad, then press the Y Button to throw or X Button to run. Do not select a direction, let go, then press the Y Button or X Button. You must hold down the Control Pad.
